To whom it may concern,

I am writing on behalf of Adam Olson regarding the position of Associate Professor at Shenandoah University. I was a student of Adam and most recently he has been a professional colleague. During this time, I have gotten to know Adam quite well and can thoroughly vouch for his character and abilities.

Adam was an amazing instructor during my time at Shenandoah University and was elemental in helping me feel prepared for my first professional work outside of school. He was always well prepared to teach class and was always well educated on the topic he was instructing. He always had time for his students as well often spending extra hours with me when I had a question about a certain topic.

Recently I had the pleasure of dealing with Adam on a professional level. It felt like we had not skipped a beat in our relationship from student to teacher but colleague to colleague. Assisting me in getting me acclimated to the new upgrades to the production room, and filling me in on techniques that I had not known that saved my clients money and me some time. Even following up with me to make sure everything went well.

Adam Olson would make a fine choice as Associate Professor and his current students and future students will benefit from his expertise in the recording arts. If you have any questions, feel free to contact me at the above address.

Sincerely yours,

George K Hoppe II
